CARRANZA ASKED TO ACT AS MEDIATORS TO BRING ABOUT ARMISTICE

Idea is to Bring About Cessation of All Hostilities in Mexico.

ANOTHER APPEAL MADE TO EUROPEAN POWERS

Federalists and Constitutionalists Fight at Mazatlan and Acapulco.

Washington, April 30.—It was asserted here today on unquestionable authority that the South American envoys who are seeking to avoid a civil war in Mexico have appealed to European governments for friendly offices to facilitate mediation between Mexico and the United States.

The appeal, it was stated, did not include a request as required from abroad, that the powers use their influence upon President Wilson to name conditions, which would ensure success of the negotiations.

It also was learned that a proposal of Carranza to head the constitutionalists to join the armistice between the United States and Mexico has been made by the mediation envoys. The proposal was forwarded to General Carranza, following his acceptance of good offices of Brazil, Argentina, and Chile, and was a part plan of the envoys to secure a general cessation of hostilities in all Mexico pending the mediation of the United States.

It is still felt, however, that the critical stage in the negotiations yet is to be met, and that the mediation will not be completed until the next few days. Notwithstanding this, the spirit of concession has been shown by the mediators, who hope that all sides will enter this final stage in the same spirit of conciliation which will permit them to find some immediate ground for common agreement.

Federalists and Constitutionalists are fighting at Mazatlan and Acapulco, according to a dispatch received here from Admiral Howard, commanding the Philippine Fleet.

Instructions were issued today by the state department to certain consuls in Mexico to remain at their posts and resume their official duties. The instructions authorized the consuls to remain at their posts and resume their official duties. The instructions authorized the consuls to remain at their posts and resume their official duties.

The American consuls all were ordered out of Mexico and the affairs of the consulates turned over to the representatives of Brazil after the seizure of Vera Cruz.

For the first time during the present revolution, Mexican Constitutionalists today were in control of the entire Northern frontier of Mexico divided by the Rio Grande from Texas. The territory is 800 miles long and it includes four strategic gateway towns.

The revolutionaries are in control of the section this week, when Nueve and Pedras Negras were occupied without resistance.

WILSON'S ACTION EXPLAINED TO THE COLORADO STRIKERS

Trinidad, Colo., April 30.—The squadron of the fifth United States Cavalry from Fort Leavenworth, Kansas, 300 men, in command of Major W. A. Holbrook reached here at 3:10 this morning. The soldiers were met by a crowd at the station by several hundred people, and were given a formal welcome by acting mayor M. J. Kahn.

Major Holbrook said the following statement:

"The president has sent us here to carry out the provisions of his proclamation. It is not the purpose of the United States to inject itself into the controversy now existing between the miners and their former employers in Colorado. The United States is acting under his desire that the return of normal conditions be brought about by peaceful means, and in order that this may be accomplished we ask all law-abiding citizens to remain quiet and refrain from any action which would interfere with the peace and the United States forces would be governed at all times by prevailing conditions."

LOAN TO FARMERS PARTIAL HOLIDAY GOOD PRICES ARE PURE BRED BULLS FOR OPENING DAY CITY'S BASEBALL AND STALLIONS BEING OBTAINED ON SCHOOL BONDS

J. L. Birnia, of Ottawa, Will Assist in Forming Local Associations Here.

Team is Given Reception at School Debenture Branch of Industrial Luncheon Today.

SAYS STALLIONS WILL BE BOUGHT LOCALLY

Animals Are Loaned Free by Dominion Government for Yearly Periods.

COMMITTEE APPOINTED TO ARRANGE PARADE FEATURE

Deacon White and Lou Nordyke Speak in Praise of Eskimos.

In connection with the Dominion Government's plan of placing pure bred bulls and stallions throughout the west J. L. Birnia, of Ottawa, arrived in the city today and will be in the district for some time inquiring into the needs of various localities and assisting in the formation of local associations which will have control of the animals loaned by the Dominion Government. To secure a stallion the association must comprise fifteen members and for a bull ten. High class registered stock is being supplied in regard to the breed.

Mr. Birnia stated that the animals that were to be placed here would be purchased locally from the nearest stud or herd having suitable animals for sale. The department is careful not to place animals at points where they would enter into competition with privately owned animals, but are placed only in districts where there is no good stock available.

The animals are loaned for one year and at the end of that time the loan may be renewed, but no animal is to remain in a district longer than three years. Male stock got by the government may not be kept for breeding purposes in the same locality. The animals will be placed among the local associations during the coming summer and fall.

Mr. Birnia will cover the district between Edmonton and Calgary and assist in forming associations where such are needed. Mr. Birnia is at the Royal George Hotel.

LIBERALS DECIDE TO FIGHT THE CANADIAN NORTHERN PROPOSALS

Ottawa, Ont., April 30.—A liberal caucus was held this morning to consider the government's Canadian Northern railway proposals. It was announced when the gathering broke up shortly before one o'clock that the party had reached an agreement to oppose the plan announced by the government which means that the result is likely to be prolonged well into June and that it is about to enter one of its most interesting phases. It is understood that the opposition members agreed to demand that MacKenzie and Mealy give an accounting of how money given to them in the past has been spent. Just to what distance the opposition proposes to carry the fight is not known. The more aggressive liberals say that legislation may have to go through under the closure rules, but this probably depends upon the developments of the next ten days.

In conversation with the Capital this morning, Manager Nordyke stated that he was pleased with the party he had gathered together. They are a good bunch of youngsters and will stand up for their rights. He said that after this afternoon on Diamond Park and a picture of the team will appear in the Capital.

A committee to look after the arrangements for opening day parade, which was announced by the luncheon by President Magrath. Complete details will be published on the Capital's sport page each day. Let everyone assist in making the opening of the baseball and athletic season a memorable event in the history of the city.

FINE AND WARM IS THE WEATHER NOW IN THIS PROVINCE

Winnipeg, Man., April 30.—The weather has been cold throughout Manitoba and most of Saskatchewan but it has become more settled while in Alberta it has been mostly fine and warm. Temperatures are for fine warmer weather in the prairie provinces today and Friday.

At only four points in Alberta was frost recorded, four degrees being registered at Brooks, Macleod and Lethbridge, and one degree at Corralton. In Saskatchewan six point reported frost, varying from three degrees at boomtown to nine at Edmonton. At the point of 5.5. Frost in Manitoba almost vanished last night, six districts reported average of less than three degrees, the coldest being at Cypress River, where there was eight degrees.

IMPORTANCE OF LIVE STOCK YARDS AGAIN MENTIONED

Provincial Agricultural Department Officials Say Present is Crucial Moment.

CAPITAL IN FARMING EXCEEDS ALL OTHERS

Clean-up Committee Asks Cooperation of Citizens in Campaign.

Two officials of the department of agriculture of the province of Alberta again emphasized the importance of the live stock industry in short addresses at the luncheon at noon today in the Empire auditorium. They also expressed the opinion that this is a crucial moment for Edmonton and the city when everybody with its future welfare at heart should be interested in the question of providing a competitive live stock market, so that the city may reap the benefits which belong to it because of its location with regard to the live stock producing section of the province.

George Harcourt, deputy minister of agriculture, started out by saying that more money is being invested in the various branches of agriculture in the year 1906, the last year for which dominion census figures are available, than in all the other industries combined. Four times as much was invested in all the branches of manufacturing. The products of the soil that year worth over \$4,000,000 and they had increased enormously since.

Manufacturers produced, on the average, goods each year valued at more than their capital, while farmers produced less than one-third of their capital annually.

Effects had been made to boost in the minds of the public the value of live stock as capital invested and production as compared with capital. The educational campaign is being carried out by the school system, by the extension agents, by the ready three agricultural schools and would establish more as the demand for them increased.

Alberta was peculiarly adapted to the raising of live stock. The northern part of the province had always been dominant in the live stock industry. The best quality of vegetables, fruits and grain grew in the north and it was easy to apply the rule a little further and see that the north raised the best live stock.

President W. J. Magrath, after Mr. Harcourt had said down, stated that the live stock industry was the backbone of the province and that it was the duty of the government to see that it was properly cared for.

W. F. Stevens, provincial live stock commissioner, also spoke later on during the luncheon and gave practically the same reasons for the establishment of a competitive live stock market as he did to the city council and the live stock trade previously. He outlined the necessity for securing sufficiently large grounds in proximity to existing live stock plants, railway yards and abattoirs.

Mr. Stevens also mentioned some of the live stock raising in Toronto, Chicago, St. Paul, Kansas City and other live stock centers.

General manager Ingram of the Swift-Canadian company for the dominion and stated that the live stock industry in the whole of North America which last year showed an increase in live stock production. The whole of the United States, taken together, had showed a big decrease in the last few years. The live stock industry was showing a large growth in production.

Unusually Late in Accord
President Magrath, the 400 or more present present showed that they were anxious to get the live stock industry in the province in the best possible condition. He stated that the live stock industry was the backbone of the province and that it was the duty of the government to see that it was properly cared for.

Frank J. Ney, general organizer of the live stock industry in the province, was present, and spoke for a few minutes on the aims and work of that society. He stated that teachers were being interchanged between this country and the other parts of the empire. A building was being erected in London for the work of the association and he hoped to see Edmonton have at least one of the same live stock centers in Canada.

C. Lionel Gibbs, of the city beautiful department, asked the live stock industry members of the association and the citizens in general for the clean-up campaign which starts Saturday. Publicity is being carried on through the press, schools and in other ways and he was now up to the citizens.

COLUMBIAN A BIG SCARE THIS PRICE

German Syndicate Purchase 18,000 Acres Near Bassano—To Go Into Agriculture Extensively and Scientifically—Co-operative Scheme—Also Plan Large Allied Industries.

New York, April 30.—Canada is a really novel experiment in German colonization, according to Arthur Thaden, managing director of a German syndicate capitalized in England, who arrived here on his way to Alberta. The syndicate has bought up much land in that province and a number of young Germans, largely of the nobility, are settling upon it. Forty families, comprising about two persons will be located on the tract within a short time and the plan is not only to farm, but to build up manufacturing industries connected with agriculture.

The syndicate has purchased nearly 18,000 acres situated near Bassano, Alta., said Mr. Thaden yesterday, "and we intend there to establish German methods of agriculture."

The syndicate I represent has a capital of \$250,000, of which a part has been supplied by the people who are going to live on the land.

In Germany there are many people among the nobility who have little means, but who have a leaning toward agriculture. Land in Germany is held at such high prices, however, that the matter of buying farm land over there is out of the question for them. Therefore they have decided together, as you might put it, and put their money into this scheme. They are going to select the land on a sort of community plan.

"A large proportion of the colonists are of the nobility and some are persons of title. For instance, there is Count Von Herstorff who is a cousin of the German ambassador at Washington. Then there is Baron Hirsch and another is Baron Von Wiseman."

All the colonists, numbering 140, will live on the land and all the men will pitch in and do the work. Indeed, except at harvest time, when hands will be brought in, all the work will be done by the colonists.

"Those who have gone in on this proposition feel that they are better off and stand a better chance of making

money in a concern backed by considerable capital. Hardly any man in the colony could have afforded to buy a farm for himself. They feel that they will be better off socially also. In a colony of their compatriots than they might have been had they gone as isolated individuals to communities where there were no Germans. The men among the colonists will conduct their affairs, rotating their crops. Wheat, barley and oats will be grown and the first year flax. As a matter of fact, we expect a good sized crop this year from the 4,000 acres largely under cultivation."

"Many of the colonists went to Canada four weeks ago and are now on the place. I am leaving tomorrow with a few others. We are buying most of our agricultural machinery and tools in Canada, though we have brought over one big German tractor plow."

"We do not intend to stop with farming. In fact, we have plans for starting industries allied with farming. As soon as the first crop is harvested, we intend to start a saw mill and other enterprises. At present a big distillery is being built and a year or two later we will have a large factory as well, so that the undertaking will be industrial, as well as agricultural."

"I am sure that the German people select a site somewhere in the western part of the United States for your colony?" Mr. Thaden was asked.

"Your laws are not favorable to companies and to ownership of large tracts of land," was the reply. "The people in Canada can be bought much cheaper."

Censure Motion De-fused
London, April 30.—Mr. Austen Chamberlain's motion in the House of Commons, in the government and for the appointment of a judicial inquiry into the alleged Ulster plot was defeated last night by a majority of 89. The figures were 344 against 254.

Little Gas Found and No Dump—No Fire Suspected at Any Point—All Night the Throng of Waiting Relatives and Friends Kept Their Places on the Mountainside.

Ecceles, W. Va., April 30.—After 24 hours of exhausting efforts, Chief Henry and a party of West Virginia miners early today reached the bottom of shaft No. 5 of the New River Colliery company, where 15 miners were buried by an explosion last Tuesday.

They found little gas and no dump and expressed the belief that conditions were such that some of the underground miners may be still alive.

All night long the firebrakes had worked in the shaft, 125 feet from the bottom, clearing away the debris and straining the leads on which the cage is opened. The heat within the whole district were called into service but it was almost daylight when the news came from the tipple that the cage was on its way to the bottom. The inspection at the bottom was brief and the inspectors were hoisted to the top to prepare for the further exploration.

Premier Sifton will sail from Liverpool on the Canadian liner "Caronia," on May 2, arriving at New York on May 10, and is expected to return back in Edmonton about the middle of the month. Hon. C. R. Mitchell left last night for New York where he will meet the premier on business in connection with the government.

LEAVE YOUNGESTER AT POLICE STATION AFTER PROLONGED HARANGUE

A Ruthless and his wife and baby went to the police station last night to settle a dispute with another Ruthless. After discussing the pros and cons, for some time, they at last decided to leave and their excitement the youngest was left lying asleep on one of the benches in the witness room, where the mother had gone about three or four blocks she suddenly remembered the child and lost no time in going back and claiming it.

Administration Wins Again

Coupled with the bill will be reported an amendment proposed by senator Simmons and provided the committee which made it follow: "Provided that neither the passage of this act, nor anything therein contained shall be construed or held as waiving, impairing or affecting any treaty or other right possessed by the U.S."

Dr. Wood's Norway Pine Syrup CURED HIM.
Bronchitis is generally the result of a cold caused by exposure to wet and inclement weather, and is a very dangerous inflammatory affection of the lungs. Neglected bronchitis is one of the most general causes of consumption, to cure it at once by the use of Dr. Wood's Norway Pine Syrup.

Mrs. C. G. Dring, Hamilton, Ont., writes: "Our little boy has been subject to severe bronchitis ever since birth, and different doctors claimed to be only able to relieve him temporarily. A neighbor advised us to use Dr. Wood's Norway Pine Syrup, so I got a bottle, and after the third dose noticed a decided change, as kept on with it, and a couple of bottles were enough to completely cure him. Now he always keeps a bottle on hand, and give it to him as soon as we notice him troubled with a cold, after it disappears as if by magic. We recommend it to all our friends who find it is just as good as I say."

Price, 25 and 50 cents a bottle. "Dr. Wood's Norway Pine Syrup" is put up in a yellow wrapper, three pine trees the trade mark, and manufactured by The T. M. Moore Co., Ltd., Toronto, Ont.

UNIONIST PAPERS
CLAIM PROSPECTS
OF PEACE BRIGHT

Mail Says Real Difficulty Will Be Controlling Radical Back Benchers.

BELFAST NATIONALISTS
IMMOVABLE, HOWEVER
Chronicle Sees Fight as One of Aristocracy, Not of Ulster.

London, April 30.—"It is felt that a prospect of settlement has never been so bright," is the Times' parliamentary correspondent's conclusion concerning last night's debate.

"A long way towards peace," is the heading of the Daily Mail's editorial. Unionists, in fact, all along the line, put themselves in the same hopeful strain and writers express the opinion that the real difficulty of settlement only lies in whether Premier Asquith is able to control the truculence of the radical back benchers.

The Morning Post's Belfast correspondent reports that the local Nationalists are both alarmed and indignant, in that they feel the premier has so far taken no drastic steps to deal with the rifle importation, and in the second because they utterly reject the Right Honourable Sir Edward Carson's federal proposals.

The English radical newspapers treat the situation rather gingerly. The Daily Chronicle, for instance, while admitting that it is impossible to doubt the sincerity of Sir Edward Carson's speech of yesterday, says it is impossible not to see that he is only, to a very limited degree, the master of his own situation.

"The die-hard among the unionists," declares the Chronicle, "will do all they can to dispute Sir Edward Carson's followers into continuing to fight not an Ulster battle but battle for the wealth and privileges of the aristocracy throughout the United Kingdom and, until this phase is over, we cannot be too sanguine about anything resulting from the renewal of negotiations."

This Manchester Guardian thinks that the terms should be discussed by the two Irish parties themselves, remarking that it is a very high price that they are asking, and it might be thought easily scaled granted the one prime condition of mutual good will.

It is to dispute Sir Edward Carson's federal proposals, to a large extent, take Edward Bonar Law's place in future conversations towards a settlement.

GOLD CURRENT NOW
COMING THIS WAY;
NOT LIKELY CONTINUE

New York, April 30.—Withdrawal yesterday of \$200,000 in gold from the treasury, and the fact that the gold is not believed by bankers to mark the inception of a comprehensive outflow, has caused a decided reaction in the market.

Since the latter part of last year, and up to about two weeks ago, Canada's gold shipments to the United States and yesterday's withdrawal was at first believed to mean a reversal of the general current of Canadian banking, but it is now selling at one-sixteenth discount.

The Panama Canal
BEGINS NEXT MONTH

Panama, April 30.—Governor Goethals decided today to begin a cargo service through the Panama Canal, and the first cargo of mail and commercial use much earlier than had been expected.

This decision was brought about by the interruption of the Tehuantepec railroad route.

The first freight to be loaded through the canal of Hawaiian sugar and it is understood that this will probably in future all be routed by way of the Panama Canal.

During the past few days much freight has been offered for transport through the canal, much of it having formerly passed over the Tehuantepec route.

The conditions imposed make it necessary to have a ship ready for re-loading at the end of the canal, in order to prevent congestion of the ships and to facilitate prompt re-loading of the cargoes. A charge is to be made for the service.

The Panama Canal is also preparing for increased traffic and prompt handling at the freight wharves at each end.

License Not Cancelled
Montreal, April 30.—By a decision given yesterday, Judge Chaboussier reversed the finding of the license of the Canadian National Railway Company, which had been suspended for a period of three months on behalf of citizens and the railway company had appealed.

The license was to have been cancelled as from May 1st.

WEDDING VENUE FOR SERIOUS ILLNESS

Vincent Astor and Helen Huntington, Both From Early American Families, Marry.

CEREMONY AT HOME OF
BRIDE VERY SIMPLE
Bridegroom Has Immense Fortune Left by Father, Who Was Titanic Victim.

Staatsburg, N.Y., April 30.—William Vincent Astor, head of the family established in America a century and a quarter ago by John Jacob Astor, the German fur trader, and perhaps the richest young man in the world, was quietly married here at noon yesterday to Miss Helen Huntington Huntington, at the home of the bride's father, Mr. and Mrs. Robert P. Huntington.

Since the tragic death of his father, who went down with the Titanic, made him master of the great fortune long associated with the Astor name, Vincent Astor has decided a pronounced not altogether due to his wealth. His interest in philanthropy and social betterment has kept him busy before the public and his marriage to a girl whom he has known since childhood gives more than a touch of romance to the union.

The Huntingtons had arranged a more elaborate wedding ceremony at Margaret's Episcopal Church in the village, but Vincent Astor's sudden illness forced them to abandon their plans. While waiting for the bride, a month ago he developed an abscess on the lungs, and for a time his condition was serious.

There was a great deal of talk at the wedding, but both he and Miss Huntington were opposed to the postponement and finally the ceremony was performed on the date originally set, but the arrangements for the ceremony were shifted from the church to the Huntington residence.

The Episcopal marriage service was read by Rev. Chas. Duncan, rector of St. Margaret's Church.

The bride is the eldest child of Mr. and Mrs. Robert P. Huntington and descendant of Samuel Huntington, of Norwich, Conn., a signer of the declaration of Independence.

Vincent Astor was born on November 15, 1887. As a child he was delicate and the outdoor life prescribed by his physician had a salutary effect on his health. He received most of his early schooling from private tutors, but for a time he went to Harvard. He entered Harvard, but the death of his father and the responsibilities that came to him with the inheritance, led him to leave the university. At present he is learning to handle the Astor interests in this country.

His fortune is estimated between \$75,000,000 and \$100,000,000.

ORPHEUM NEXT WEEK

AT EMPIRE HAS SOME

STELLAR ATTRACTIONS

Miss Valeria Suratt, well known to musical comedy patrons, will come to the Orpheum theatre the first half of next week as a headline feature in the Orpheum vaudeville bill in "Black Crepe and Diamonds," a fantasy by George Baldwin, which affords Miss Suratt ample opportunity to display the gorgeous wardrobe for which she is noted.

In "New Stuff," the one act play in which Irene Timmins has enjoyed stellar distinction, a new twist is given to the crook life. The result is a decidedly gripping act, terminating refreshingly in a manner out of the ordinary. Miss Timmins is a delightful actress.

Walter De Leon and "Muggins" Davies, the star of "The class of '09," have a clever line of original songs, dances and dialogues, which they present in an artistic way. Both of these performers have been seen in Edmonton before and on their previous visit made a decidedly favorable impression.

Once more James H. Cullen will appear before the Edmonton theatre-going public. He is making his fifteenth tour of the Orpheum circuit as a monologist, and his success this season has been even greater than ever before.

Other acts on the excellent Orpheum program include Alleen Stanley, "The Girl with the Personality," in character songs; Valene and La More, two feisty comedians; and the "The M. Revell," who bring an exceptional novelty direct from the English music halls.

NEW EPOCH MARKED

IN THE THEATRICAL

VAUDEVILLE HISTORY

The return to Pantages next week of the well known Pollard Opera company of juveniles in the greatest of all theatrical spectacles, "The Mikado," marks a new epoch in the theatrical history of vaudeville. Tabloid features of various operas have been time to time presented but it remained for the Pollards to attempt in a single act to give the audience the leading songs and situations which have since the first time the opera was produced stamped it as a masterpiece.

Without lessening the wonderful libretto of "The Mikado," the producers for the vaudeville edition have evolved a miniature opera that contains all the features of the original score. Of the cast it can only be said that the Pollards for nearly a decade in Western Canada will be seen in their respective roles. Toth is, will be only to say that the Pollards are the Pollards.

From an obscure place in San Francisco comes little girl of Buena Vista who while playing nightly for the habits of the place was discovered by Mrs. Alex. Pantages some 18 months ago. Her brilliant handling of the violin at once attracted the vaudeville manager's eye and by the way is a violinist of no mean order herself and inquires further information that she has secured for her the best teachers procurable on the Pacific coast and then some nine months ago sent her to Boston for a further course of violin education. She will be one of the features of next week's bill offering a classical repertoire and will be assisted by a talented young pianist as accompanist.

Leon Gurney, the Siberian Songbird, with a selection of songs popular and classical is slated for a spot on the program while Charles Kenna the Drove Kalair and Kallomero Brothers a team of gymnasts will complete the bill.

DUSTIN FARNUM IN

"THE SQUAW MAN"

AT MONARCH THEATRE

Those who were fortunate to see "The Black 13" should not miss "The Fight for Fortune" showing at the Monarch theatre today. This is the second of the Detective Hayes series, sequel to "The Black 13" and is the highest grade English film on the market. "The Fight for Fortune" is a play that will be remembered by those who see it.

For tomorrow and Saturday the Monarch will offer the world-wide known play, "The Squaw Man," with Dustin Farnum in six parts. The play is written by Cecil B. DeMille and Oscar Apfel, presented by Jesse Lasky and written by Edwin Milton Boyle. There are 230 scenes and 140 actors and actresses, most of them acknowledged stars.

"The Squaw Man," the vivid, western drama, in which Dustin Farnum played the title role, and in which he now appears in his role of a six-part motion picture produced by the Jesse L. Lasky Feature Play company of New York, and is the sensation wherever shown.

The story of "The Squaw Man" is as follows:—Young Wynne, a lieutenant in the British army, is made the guardian of a trust fund raised by the members of his regiment for the care of soldiers' widows. Lord Kestrel, a member of Wynne's regiment, by means of a forged check, embezzles a portion of the fund, and at the behest of young Kestrel's mother,

ALLEEN STANLEY

Character singer who comes to the Orpheum theatre the first half of next week as a feature of the Orpheum vaudeville bill.

Wynne leaves London hurriedly and suspicion rests on him. He sails a semi-whaling vessel for South America, but when two days out the schooner catches fire and burns to the water's edge. Wynne, who changes his name to Jim Carston, is saved in one of the lifeboats, and is later picked up at sea by a steamer bound for America. While seeing New York he accidentally becomes acquainted with a westerner, and is induced to go west and take up ranch life. He is seen several years later as Jim Carston, a successful ranch owner and cattle breeder.

During Thrilling incidents the hostility of "Cash" Hawkins, and Hawkins made several attempts on his life, which he successfully frustrated. At the final attempt on Carston's life, Hawkins is slain by "Nat-U-Rich," a little Indian girl, who is secretly in love with Carston. "Nat-U-Rich" later saves Carston's life again, and out of gratitude Carston marries her. Many thrilling episodes occur during the next year, and all the while the sheriff is seeking the murderer of "Cash" Hawkins.

A climax comes to the union of Carston and "Nat-U-Rich," and then the scene reverts to England, where Lord Kestrel is seen dying from an injury he received in a polo game. With his last breath he writes a confession and testament, and Carston's friends then endeavor to prevail upon him to return to England, and assume the station originally held by him. He declines, realizing that his wife would never endure in English society. He decides to send his little boy to England to be educated. "Nat-U-Rich," the wife, suspicious as are Indians, fearing that her husband is to be untrue to her, and that she will be left alone, she goes to the United States, and there she meets her husband's friend, who is now a millionaire, and she is induced to marry him.

Carston's friends arrive on the scene, and he is seen looking at his first love, and as the picture slowly fades away they are seen looking at each other in the all-momentary "The Squaw Man" as a film drama is vivid, keen, and thrilling, the entire action of the play being in the great American west, and the film is a number of magnificent situations and poignant climaxes not possible on the stage.

BRILLIANT MOVING

PICTURE ARTIST AT

EMPIRE PLAYHOUSE

"The Girl at the Curtain," a two-part dramatic and presented film, leads the current program at the Empire theatre. One of the brilliant films of the moving picture world, Francis X. Bushman, is in the leading role and is supported by a well selected cast. The story is a clean and wholesome comedy drama, and makes a film that will satisfy the most fastidious.

It tells of Warren Bradley, a promising young city lawyer, who learns that there is a peculiar provision in his uncle's will which bequeaths him half of a very large fortune, but he must find out the details. Very simple. He is to marry a distant relative. This young chap has had a scheme of his in order to get the money he is quite satisfied to marry almost anybody—just not the girl he loves. He goes to a boarding school, where he meets a girl, who is a beauty, with quite firm notions of her own, and she is a lawyer's daughter. He has to have anything to do with him—even so much as see him. "Then you will marry me without seeing me," she says. This is what he writes in answer. Mary would ignore this appeal also but for the disastrous financial condition of her uncle at the time is plunged in. IF BACK HURTS BEGIN ON SALTS

Flush your Kidneys occasionally if you eat meat regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness, and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage, or attended by a sensation of itching, stop eating meat and get about four ounces of Epsom salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Dr. Salt is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

LONDON MAD AT BEING CALLED SLOW AT NIGHT

Night Club Pointed out as the

HOW MILITANT ADVERTISES
Sends Mustard Plaster to
Winston Churchill and Prints
'Votes for Women' on
Chest.

London, April 29.—We Londoners, sober and dignified as we are, often have been severely criticised by the French and Americans, who say we are lacking in the frillities which make life really worth while. In particular, they have deplored the absence of night life which has made Paris and New York famous. And now we are being held up as the example of plety after nightfall by Herr Von Jager, head of the Berlin police, who is conducting a campaign to make the German capital a place of peace and quiet after the hour of 11 in the morning, but I can assure you that the tippling and dancing do not cease at that hour. We English like to take our pleasures as we do everything else, in a dignified way, far from the gaze of an admiring throng.

Night Club Where London Plays.
The night club, the rendezvous of the social elite, is the place to see London at its play. These clubs are becoming so popular that they are beginning to lose some of their exclusiveness, and of late several "club openings" have been held into court for conducting places which were a trifle beyond the pale of social decorum.

Another instance which shows that London is still a bit frivolous came to light the other day through an automobile accident. At 4 o'clock in the morning a motor car was seen to dash around a corner and into a milk cart. The cart was overturned and the occupants of the machine thrown out. Witnesses said that the accident was the result of the driver of the car attempting to obtain a light for his cigarette from the coal of the cigarette definitely held between the lips of his passenger. Both were in evening dress and said they were coming from an evening at a night club. We are frivolous in spite of the accusations of the Parisians, Americans and stern old Herr Von Jager.

Cabinet Members Seldom Smile.
With the activities of the suffragettes and the present stir over Ulster politicians are having a strenuous time of it, and members of the cabinet seldom are seen to smile. However, the suffragettes are being credited with a coup which obtained a smile from most of the cabinet members.

A certain cabinet minister, very much in the public eye and said to be none other than Mr. Winston Churchill, recently was attacked with a bad cold, which left his voice feeble and his throat and chest weak. In spite of the best medical treatment he was unable to shake off the ill effects. A few days ago he was relating some of his uncomfortable condition to a sympathetic lady, who at once exclaimed: "Believe me, the only thing to cure you is a mustard plaster."

"Do you really think so?" asked the right honorable gentleman. "Well, I wish you would send me one."

"If I do, will you promise to try it?" "I solemnly promise," was the answer.

"That's settled, then," replied the lady, who went home at once, slipped a mustard plaster into an envelope, and sent it post-haste to the sufferer.

The old-fashioned remedy worked like magic and completely cured the minister. When, however, the plaster was removed from the distinguished gentleman's chest, he was horrified to find "Votes for Women" labeled thereon.

SEVEN LIVES THOUGHT LOST WHEN SCHOONER SINKS IN ONTARIO

Kingston, Ont., April 29.—The coal schooner, Jamieson, owned and sailed by Captain "Black" McCullough of Nanaimo went down on Lake Ontario, and that the crew of seven on board lost their lives, is the fear expressed in many circles today. The schooner cleared for Oswego on Tuesday afternoon with a cargo of coal. Chas. Stevens, Nanaimo, and no trace of the vessel has been found since. Enquiry at Brighton, where it was believed the vessel would take shelter, elicited the information that the vessel had not been seen. A heavy gale raged all Tuesday night.

Dover, Eng., April 29.—A big steamship went ashore north of Goodwin Sands in a fog today and immediately signalled for help.

The life-saving situation on the coast of Goodwin Sands hurried lifeboats to the scene.

Rochester, N.Y., April 29.—Dispatches from Oswego, N.Y., today report the loss of six lives in the wrecking of three schooners and one tug in a storm on Lake Ontario.

Escapes From the Storm
Port Arthur, Ont., April 29.—The big steamship which did so much damage at Duluth and on the South shore of Lake Superior yesterday had no appreciable effect about this district. The wind was north east and the shore therefore provided a shelter for this side of the waterway, though some boats arrived today report gales at the lower end of Superior, the weather is now fine and mild.

COMMISSIONERS ACT REGARDING PAVING TO UNIVERSITY GROUNDS

At a special meeting of the city commissioners this morning the matter of opening Fifth Avenue North-West across the University grounds and several other matters of interest were taken up in conjunction with Dr. Tury of the University.

A motion was moved by Commissioner Harrison that the letter from Dr. Tury to Commissioner Chairmen of February 19th be confirmed and the city solicitor be instructed to draw up an agreement according to the letter, and to submit it to the commissioners and university representatives before forwarding to the council. The motion was carried.

Commissioner Saunders stated that the paving of Fifth Avenue north was included in this year's program and providing the program was gone on with the work would be done this year. Dr. Tury stated that under the amalgamation agreement the city was liable for the paving of Fifth Avenue north. He added that if the street railway system was laid this year it would receive a big revenue because the university are going to construct the finest athletic field in Western Canada and it was the intention to rent these grounds to outside teams to hold their games.

How Many Times Have You Heard the Remark "I Must Take a Spring Medicine"

Do You Know Why This Remark Is Made?

The reason for this is that your liver is sluggish, your bowels inclined to be constipated, and your blood thick and impure.

This is caused by the amount of rich and heavy food you have eaten during the winter months to keep your body warm.

"Is it not enough to clog the system up with waste and poisonous matter"? What you need is something to put the blood into proper shape and prepare it for the hot summer months.

RYLE AND FOY ARE CLOSE CONTENDERS IN BILLIARD GAME

Billy Ryle and Eddie Foy again broke even in their billiard game at the Empire rooms yesterday. In the afternoon Foy won a close game 15 to 13, running neck and neck with Ryle throughout. Foy ran out with a pretty run of four, making a very difficult shot for the winning point.

In the evening Ryle was at the top of his form and opened the game with a run of four. He kept counting all the points, compiling his required 25 in 41 innings, averaging almost 30. Both players made high runs of four. The score was 25 to 19.

That the third cushion game is popular was shown by the large attendance and the applause given the players. Mr. Foy left last evening for Vancouver carrying with him the best wishes of a large number of friends made during his stop in Edmonton.

Yesterday's results—
Foy, 25; high runs, 2 and 4; innings, 51.
Ryle, 13; high runs, 3 and 3.
Evening game:
Ryle, 25; high runs, 4 and 4; innings, 11.
Foy, 19; high runs, 2 and 4.

THE SOUTH SIDE ATHLETIC FIELD POPULAR RESORT

The popularity of the South side athletic grounds was amply demonstrated last evening, when nearly 100 athletes were engaged in various branches of sport. There was in progress lacrosse, football, tennis, cricket, baseball, horse racing, motor cycling and track athletics. As the season advances this number will be increased, and it will be no uncommon thing to see as many as 100 or 700 athletes on the south side field at the same time.

Irish Association Lacrosse
There will be a meeting of the Irish Association tonight (Thursday) at 8 o'clock in the Mechanics Hall, Third street. All Irishmen who are interested in the national game, lacrosse, are requested to be present.

Both teams are very strong this year and prospects are good for a splendid battle for first honors. The S. O. E. lineup is as follows and the players mentioned are requested to be on the grounds at 6:15: Parker, Morgan, Gillespie, Axten, Keblan, Eastham, Bradford, Gregory, Ockendon, Coward, Jennings, Christie Hibdon and Rawlins.

Another Court Action

St. Louis, Montana, April 30.—Suit for \$10,000 damages was filed yesterday by the Kansas City federal league club against Fred Blundine, pitcher with the Cleveland Americans, for alleged breach of contract. An injunction to prevent Blundine from playing with other club than the Kansas City Federals is sought.

Frank Chance III

New York, April 30.—Frank Chance, manager of the New York American league team, was taken ill at the polo grounds before today's game, and had to turn his charge over to Captain Roger Peckinpaugh for the afternoon.

Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on International subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.
